

PTZ OPTICS CASE STUDY

EDUCATION CLASSROOM SPACE

CUSTOMER SUCCESS STORY

Learn how a University of Indiana Pennsylvania uses PTZ Optics!

Indiana University of Pennsylvania, IUP Penn Center, is located just outside of Pittsburgh. "Among numerous classrooms and computer labs, there are 2 high-end classrooms equipped for videoconferencing with Crestron integration." says Chris Barber, Broadcast System Specialist for IUP.

In the fall semester of 2016, a class was being scheduled which required videoconferencing but both of the other rooms were already booked. Working with the Director, Rich Muth, a solution was to purchase a better webcam, which is pictured sitting at the teaching podium, and purchase a Zoom license. This worked, however the placement of the webcam in relation to the screen, pictured in the full room shot, made for an awkward viewing experience from the main campus.

PRODUCT DETAILS

PTZ Optics 20X SDI

Powerful PTZ capabilities with 3G-SDI 1080p video inputs for video conferencing.

Wall Mount SKU: HCM-1-BK

This wall mount is made in the USA and provides a easy place to wall mount PTZ Optic s cameras.

Epiphan AV.io

This frame grabber converts HD-SDI to USB 3.0. Many of our customers also use the Magewell HD-SDI to USB too.

Distance Learning

"At the end of the semester we started looking for a better solution, not just for video but for the audio also. A Google search took me to Haverford Systems website where I saw your PTZOptics SDI camera. After a phone call with Phil Shoop, I knew this was the way to go considering the cost of a full Polycom setup. I installed your camera, along with a Vaddio ceiling mic array, and the results were superb. We are very impressed with the quality of the video. We may have need for a similar setup at another branch campus, IUP Northpointe."

Chris Barber
Broadcast Systems Specialist
College of Education & Educational Technology
Indiana University of Pennsylvania
Chief Engineer, IUP-TV & WIUP-FM
Operations Manager, IUP Center for Videoconferencing
724-357-2491

Simplicity is key for useful Audio Visual classroom design. From the teachers perspective all they need to do is open up any video conferencing or recording application and select PTZOptic as the webcam.

ABOUT PTZOPTICS

PTZOptics provides high quality video conferencing and broadcast cameras with HDMI, 3G-SDI, USB 3.0 and IP Streaming. Our approach to video camera manufacturing focuses on value. We strive to provide best in class features at affordable prices while we extend our reach with open source camera controls, free Crestron/Extron programming modules and amazing technical support.
